

1995
SANGIOVESE
Walla Walla Valley
Fact Sheet

Average Brix at Harvest
22.5

Potentially large crop required thinning of fruit in the vineyard, with outstanding results.

Vineyards in this Blend
Pepper Bridge, Estate, and Spring Valley vineyards in the Walla Walla Valley

Blending Detail
80% Sangiovese, 17% Syrah, 2% Cabernet Sauvignon, and 1% Petit Verdot

Oak Aging Profile
New French and American Oak combined for 15 months

Aging Potential of wine
Our production experience with sangiovese is somewhat limited but we feel it should parallel merlot. Historically, Italian sangioveses of good structure can age 20 years or longer.

Production of this Wine
297 cases
